

Power Chairs

Reference no. PC020

Cruiser 20 – P327XL Power Chair

The P327XL power chair is a robust chair that will make the larger user more comfortable on their cruise, boasting full suspension and a large padded adjustable captains seat. Flip up arms make for an easy transfer. There is a charging point located on the swing away joy stick for convenience. On board are 2x 50Ah AGM dry cell batteries which can give a max speed of 6.4kmh(4mph) and a max range of 32km(20miles), although the range and speed of the chair may vary depending on the weight of the user, terrain type, outside temperature and battery charge. We advise that you plan your route to avoid adverse terrain, inclines, kerbs and steps if possible; if this is unavoidable we do not advise an incline above 5° and a kerb / step above 4cm(1.5"). If it has been agreed that adjustments are necessary, this will need to be done prior to 1pm on the day of the cruise. Please arrange this with the office.

Specifications
