SupaScoota Spartan

The SupaScoota Spartan is an excellent mobility scooter for the larger person who isn't prepared to compromise on comfort or performance. It has a weight capacity of up to 32 stone and offers a level of comfort you'll really enjoy whether driving around a cruise ship or on longer excursions. A turning radius of 98 cm will allow you to navigate smaller spaces than a more traditional scooter. A large padded suspension seat and extra leg room will give you excellent ride quality while still keeping the manoeuvrability and portability expected from the SupaScoota range.
