

## Mobility scooters

Reference no. **ST044**

Stowaway SupaLite 4 Sport

Welcome to probably the lightest 4-wheeled mobility scooter in the world, the SupaLite 4 Sport. This eye-catching addition to the SupaScoota range has pneumatic rear wheels, plus a unique flat-folding seat which is a real space saver. For added driving comfort the seat comes with detachable arm rests that fold upwards allowing easy access in and out of the scooter. The front wheels are close together, giving you the stability of 4-wheels with the manoeuvrability of 3. It weighs in at an amazing 20.6kg (45.3 lbs) and can be dismantled into three, easy to manage sections which comes in handy for home storage or when lifting into your car. You'll get a travel distance of up to 9 miles (14.4 km) on a full charge, and the speed reduction system helps to slow the scooter when turning a corner.
