

Power Chairs

Reference no. PC013 Cruiser 12A

The Cruiser 12A has been introduced specifically to overcome restrictions which relate to motorised transport on P&O and Cunard cruise ships. Where clients are unable to obtain accessible cabins to take a mobility scooter the cruiser 12A can be hired. The chair folds like a manual wheelchair for easy storage. On board are 2x 11.6Ah lithium ion batteries which can give a max speed of 6.4kmh(4mph) The range and speed of the chair may vary depending on the weight of the user, terrain type, outside temperature and battery charge. We advise that you plan your route to avoid adverse terrain, inclines, kerbs and steps if possible; if this is unavoidable, we do not advise an incline above 5° and a kerb / step above 4cm (1.5"). If it has been agreed that adjustments are necessary, this will need to be done prior to 1pm on the day of the cruise. Please arrange this with the office.
